covering all farmers and all crops (except fruits) in one district of each State/U. T. The draft Pilot Crop Insurance Scheme has since been prepared in consultation with concerned Ministries/agencies and the State Governments/U. Ts. and is under finalisation. Under the PCIS, it is proposed to excluded risks which are of preventable nature.

(d) No, Sir.

Incentive to the Cotton Farming Community

104. SHRI S.S. SURJEWALA : Will the Minister of AGRICULTURE be pleased to state :

(a) whether the prices of inputs like pesti cide, insectisides etc., have gone sky high and production of cotton affected badly in the cotton belt of the country;

(b) if so, the loss occurred oh account of this price rise and whether Government have compensated this loss in the form of subsidy/bonus etc. to the cotton farming community;

(c) whether Government is aware that various cotton diseases viz American Diseas es and Ball worm, had diminished cotton production and it is less than one half of the normal production per acre; and

(d) the steps taken by Government to check such diseases ?

THE MINISTER OF STATE IN THE MINISTRY OF NON CONVENTIONAL ENERGY SOURCES AND THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI S. KRISHNA KUMAR): (a) No, Sir.

(b) Question does not arise.

(c) During Kharif 1993-94, by and large, low incidence of American ballworm on cotton has been reported from major cotton growing areas in the country and the cotton production is not likely to be diminished significantly.

(d) The following steps have been taken in this regard :

(i) Farmers have been advised to adopt Integrated Pest Management (IMP) approach which includes use of only recommended pesticides and avoiding spray of insecticide mixtures.

(ii) Under the Intensive Cotton Development Programme (1CDP), the Government is providing 25% subsidy on the cost of pesticides, 50% subsidy on the cost of plant protection equipment, 25% subsidy on the cost of tractor-mounted sprayers.

(iii) Farmers are being provided incentives on the use of pheromone traps and Nuclear Polyhedrosis virus (NPV) etc.
